Quality control system

Together with the PKF network, PKF Brisbane has comprehensively reviewed and updated the firm's system of quality management (SOQM) to respond to the requirements of the new Australian Standard of Quality Management (ASQM 1) which came into effect on 15 December 2022.

PKF Brisbane (the firm) has fully implemented a uniform system of quality management ("SOQM") in line with the requirements of Auditing Standard ASQM 1: Quality Management for Firms that Perform Audits or Reviews of Financial Reports and Other Financial Information, or Other Assurance or Related Services Engagements - effective 15 December 2022 (ASQM 1). A SOQM is the mechanism that creates an environment that enables and supports engagement teams in performing quality engagements. It helps the firm in achieving consistent engagement quality because it is focused on how the firm manages the quality of engagements performed. The SOQM is designed to operate in a continual and iterative

manner, much like the risk assessment process in an audit, and is responsive in the nature and circumstances of the firm and its engagements. The firm's system of internal quality control and how it complies with the requirements are detailed below.

1. GOVERNANCE AND LEADERSHIP

The overall responsibility for the Firm's system of quality control has been accepted by the Partners of PKF Brisbane. Each Partner has an overriding commitment to quality, however day-to-day responsibility has been assigned to a specific Partner. The firm has documented the above SOQM within the firm's Quality Control Manual. This document sets out various policies and procedures that reflect the ASQM 1 requirements. The Partners reinforce their commitment to quality, and an annual review of these policies and procedures is performed and updated, when required.

The Partners' commitment to quality within these standards is reinforced to staff through the following:

- All team members are expected to maintain the tone of a high level of quality through the application to their various assigned tasks
- Quality will not be compromised on assignments
- Procedures and processes will be consistently followed by all team members
- Team members' annual performance reviews include an assessment on their commitment to quality
- Ongoing training is provided to ensure quality is maintained
- Team members are encouraged to participate and actively attend training sessions internally and externally.

2. RELEVANT ETHICAL REQUIREMENTS

The firm's professional standards note covering independence sets out the following:

- Adherence to the ICAA's Code of Ethics and Professional Standards issued by the Accounting Professional & Ethical Standards Board (APESB) takes precedence over commercial considerations
- Partners and managers are required to keep independence issues under constant review and, in respect of audit assignments, reconfirm the firm's independence having regard to the APESB Code of Ethics and Professional Standards, prior to the commencement of every audit
- All members of the firm are required to complete an annual declaration of their independence and freedom from conflicts of interest
- Partners of network firms are required to complete a prohibited securities declaration annually.

The requirement to comply with ICAA's Code of Ethics and APESB's Professional Standards is set out in the firm's Quality Control Manual and forms part of the employees' contracts of employment.

3. ACCEPTANCE AND CONTINUANCE OF CLIENT RELATIONSHIPS AND SPECIFIC ENGAGEMENTS

The firm has detailed procedures covering the acceptance and continuance of client relationships and new specific engagements. This includes conducting an independence check throughout the PKF Australia network for all public interest entity (PIE) tenders and proposed appointments. For all PIEs, a comprehensive client acceptance form must be completed prior to acceptance of an appointment. This requires identification of the prospective client, an assessment of the firm's independence and freedom from conflicts of interest, and an assessment of whether the firm has the requisite skills to carry out the engagement. Upon acceptance of a new client or a specific engagement from an existing client, the firm issues a detailed engagement letter for agreement by the client. This includes the nature of the assignment and the firm's standard terms of business.

4. RESOURCES

The firm has established policies and procedures to ensure that its people are equipped with the required technical skills, commitment to client service and high professional and ethical standards, covering objectivity, integrity and independence.

The firm sets high standards for the recruitment and promotion of personnel, in particular with regard to the selection and interview of candidates and the qualifications required. Partners are involved in all interviews and references are always taken, including from professional and regulatory bodies. All new staff are subject to a compulsory probationary period of at least three months as part of their employment agreement.

The firm develops the capabilities and competence of its staff through a variety of methods. Formal training courses are developed internally or are sourced from reputable professional educators including but not limited to the Institute of Chartered Accountants Australia and New Zealand (CAANZ) and GAAP Consulting. Formal courses may take the form of group conferences, webinars, workshops or seminars.

We expect, as a minimum, that personnel meet the professional development requirements of CAANZ. A summary of these requirements is as follows:

- The undertaking of CPE to achieve a minimum of 120 CPE hours over a three-year period
- At least 20 hours must be completed annually
- Over the three-year period, a maximum of 30 hours technical reading may be claimed as CPE
- Professional staff are expected and encouraged to take personal responsibility for maintaining their skills and knowledge by monitoring relevant professional developments
- The firm sends regular Client Alerts on legislative changes.

The firm also provides:

- A technical library, including online resources available via the firm's website
- Manuals setting out the firm's procedures for all audit and assurance engagements as well as other services provided by the firm

- Subscriptions to a number of technical updates emailed by various bodies including CAANZ and the Taxation Institute of Australia
- Half-yearly and externally-provided training for staff and partners dealing with current developments, (new legislation, accounting and auditing standards)
- Ad hoc internal and external training to meet specific needs.

The progress of students studying for their professional qualification with CAANZ and other bodies (for example, the Taxation Institute of Australia) is carefully monitored, with each student being closely supported.

Audit partners also satisfy ASIC's registered company auditor requirements.

5. ENGAGEMENT PERFORMANCE

The firm's procedures for engagements are set out in the firm's quality control manual. In respect of audit and assurance engagements the firm uses a mixture of proprietary audit and developed programs. Internationally recognised audit software, Caseware, is used to ensure audit engagements comply with Australian Auditing Standards and Ethical Requirements.

All professional work is subject to review by managers and partners, with clear guidelines laid down for second partner consultation and the use of external experts where required.

Adequate supervision is provided to staff in performing their tasks through the following:

- All team members have direct access to Partners
- In-charge auditors meeting with Partners for one-on-one consultations.

Partners and managers are constantly monitoring actual WIP compared to the time budgets agreed within planning.

6. MONITORING

The responsibility for quality control is taken on by all managers and Partners. All engagements are reviewed by the engagement Partner and any issues identified at the time must be addressed and cleared before the final result is achieved. This engagement review includes reviewing whether the firm's policies and procedures have been followed.

Engagement Quality Reviews (EQR) are required on all public listed and disclosing entity client audits. An EQR must be performed by a registered company auditor.

Based on the results of monitoring, we are satisfied that our quality control system is operating effectively to ensure that we comply with professional standards and deliver a quality service to our clients.

Independence procedures and practices

The firm's Quality Control Manual sets out the independence and ethical requirements and procedures in relation to audits.

This reflects and satisfies the requirements of the APESB's Code of Ethics and Professional Standards and an exercise has been carried out to map the manual against these requirements.

The audit software, Caseware, also has comprehensive programs and directions in relation to independence. The firm's procedures cover:

- Integrity, objectivity and independence
- Financial, business, employment and personal relationships
- Long association with the audit engagement
- Fees, remuneration and evaluation policies, litigation, gifts and hospitality
- Non-audit services.

INTEGRITY, OBJECTIVITY AND INDEPENDENCE

The Audit Partner is ultimately responsible for making decisions on independence and objectivity matters. Where a threat to objectivity is identified, the Partner considers whether safeguards can be introduced such as having different types of work for the same client done by different teams or introducing an engagement quality control reviewer. If the safeguards are determined to be sufficient, to reduce the threat to an acceptable level, then the relevant issue can be overcome. The audit practice has not to date needed to deal with any of these types of threats.

Partners are expected to report all threats to objectivity and independence to those charged with governance of the client with details of the relevant safeguards where appropriate and this is recorded on the audit file.

Governance is further managed by regular partner meetings.

FINANCIAL, BUSINESS, EMPLOYMENT AND PERSONAL RELATIONSHIPS

Partners and their immediate families are prohibited from having a financial interest in an audit client of the firm. Members of staff and their immediate families cannot have a financial interest in clients where they have an involvement in the audit.

Neither the firm nor Partners, staff and their immediate families can enter into a business relationship with an audit client of the firm, unless this involves the purchase of goods and services in the ordinary course of business, on an arm's length basis and the value is not material to either party, or the relationship is clearly inconsequential to both parties.

Partners and staff must report to the Managing Partner where a member of their immediate or close family has an employment relationship with an audit client. Where a Partner leaves the firm to join his or her audit client, unless two years have elapsed since the last audit report was signed, the firm must resign from the audit engagement.

LONG ASSOCIATION WITH THE AUDIT ENGAGEMENT

In the case of listed companies and PIEs, the Partners must rotate from the audit after five years, with 'cooling off' periods undertaken as consistent with APES 110 Code of Ethics for Professional Accountants (including Independence Standards).

A rotation database is maintained holding a record of every PIE client. The database is reviewed by the audit partners on a regular basis.

FEES, REMUNERATION & EVALUATION, POLICIES, GIFTS AND HOSPITALITY

The firm's policies specifically prohibit partners and staff from receiving incentives or rewards for selling non-audit services to audit-clients.

Contingency fees are prohibited for certain types of work such as audit and where they may rely on novel or contentious matters relating to the audit. There are also restrictions on the potential quantum of fees so they cannot individually be material in a financial sense to the firm.

Gifts and hospitality may not be accepted. Hospitality is provided to clients and on an ad hoc basis. Such hospitality is immaterial in nature.

NON-AUDIT SERVICES

The overriding consideration in deciding whether the firm can properly provide a non-audit service to an audit client, is whether it is probable that a reasonable and informed third party would regard the objectives of the non-audit service as being consistent with the objectives of the audit of the financial statements.

The firm has a policy that whenever a partner or member of staff is contemplating providing non-audit services to an audit client, the audit partners are informed promptly, so that the audit partners can make an assessment of the relevant threats and safeguards.

DOCUMENTATION

Ethical and independence considerations are documented at the following stages:

- The client acceptance and continuance stages
- The planning stage of each audit engagement
- The conclusion of each audit engagement.

The firm reports to those charged with governance of audit client's incorporate independence confirmations. Specific management issues are then incorporated into closing reports to audit clients.

A prescribed list is maintained of all entities where investment is prohibited because of client relationships. This list is accessible to all staff and is applicable across the PKF Network.

CONFLICTS OF INTEREST

The firm's system for identifying conflicts of interest is built around internal database searches and e-mail notifications of potential engagements to all Partners. Procedures for dealing with actual and potential conflicts are set out in the Quality Control Guide and the PKF International Professional Standards Manual, and include notifications of potential conflicts to interested parties, establishing safeguards, and not proceeding with the potential engagement.

A register of business relationships with clients is maintained and reviewed annually by a specified Partner and its accuracy confirmed each year by every Partner.

MONITORING AND REVIEW

Procedures are in place to monitor compliance with the firm's independence requirements. As part of their review procedures, the Managing Partner reviews and checks compliance with the firm's independence procedures. The audit quality assurance programme considers adherence to the firm's ethical and independence requirements on each engagement selected for review. Additionally an annual declaration is made by every partner and member of staff confirming compliance with all ethical and independence requirements.

During the year the Managing Partner carried out a review of the firm's independence procedures and confirmed that they were satisfactory.
